

DATA BLATT 150e

TECHNICAL DATA BODY/CHASSIS

1. Karosseriebauform SUV
2. Segment Geländewagen
3. Dachreling Ja

ELECTRIC MOTOR

1. Acceleration 0-100 km/h 8.2 sec
2. Top speed 140 km/h on customer request 180 km/h
3. Reichweite 409 km
4. Leistung 100 kW (136 PS)
5. Max. Drehmoment 353 Nm
6. Antrieb Front
7. Energy consumption
8. NEDC values, range 406 km
9. Vehicle consumption 13.3 kWh/100km
10. CO2 Emissionen 0 g/km

BATTERY SYSTEM

1. Battery capacity 54 kWh
2. Ladeanschluss Type 2
3. Placement Front - Middle
4. Schnellladeleistung (max.) 80 kW **DC**
5. Schnellladezeit (23->184 km) 36 min
6. Ladeleistung 6.6 kW AC
7. Charging time (0->230 km) 8 hours
8. Ladegeschwindigkeit 29 km/h
9. Usable battery capacity * 54 kWh net
10. Schnellladeanschluss CCS
11. Placement Front - Middle
12. Schnellladeleistung (max.) 80 kW DC
13. Schnellladezeit (23->184 km) 36 min
14. Schnellladegeschwindigkeit 260 km/h
15. Charging cable (safety plug with type 2 plug)
16. Quick charging cable (Type 2 with Type 2 plug, 32A)

Brakes:

17. Disc brake

SIZE & WEIGHT

- | | | |
|----|-------------------|---------|
| 1. | Länge | 4100 mm |
| 1. | Width | 1740 mm |
| 2. | Höhe | 1630 mm |
| 3. | Radstand | 2510 mm |
| 4. | Kerb weight | 1491 kg |
| 5. | Kofferraumvolumen | 448 L |

- 6. Towed load unbraked 0 kg
- 7. Towing load braked 0 kg
- 8. Roof load 75 kg

Seats

- 9. Seats 5 people
- 10. Isofix Yes, 2 seats
- 11. Wendekreis 11,2 m

Security

Overall assessment

Occupant protection Adults	90%
Inmate protection Children	85%
Bewertungsjahr	2019
Unprotected road users	64%
Sicherheitsassistenten	70%

For more details on the safety assessment, see euroncap.com

Facilities

- 1. Leather seats & part of side panelling (artificial leather)
- 2. Abs
- 3. Abstandstempomat
- 4. Alarm
- 5. Berganfahrassistent
- 6. Electr. Window jack front & rear,
- 7. Electr. Side mirror
- 8. Electr. Immobilizer
- 9. Esp
- 10. Steering wheel
- 11. LED daytime running lights
- 12. Multifunction steering wheel
- 13. Navigation system **EUROPA**
- 14. Radio DAB
- 15. Rain sensor
- 16. Reifendruckkontrolle
- 17. Keyless central locking
- 18. Heated
- 19. Traction control
- 20. Tuner/Radio
- 21. 3 USB portals
- 22. Bluetooth
- 23. Carplay
- 24. Android Auto
- 25. MP3
- 26. Fernverriegelung
- 27. Rear seat foldable
- 28. Bluetooth-Autotelefonvorbereitung
- 29. height-adjustable driver's seat

- 30. Electrically foldable exterior mirrors
- 31. Cruise control adaptive
- 32. Electronic brake force distribution
- 33. Alloy Wheels 16" 215/50 R17
- 34. Reifenreparaturset
- 35. Multimedia preparation
- 36. Navigation system full map
- 37. Premium Telefonintegration
- 38. Front seats heated

AUFPREISPFLICHTIG

- 1. Farbe incl Dover White Nichtmetallische Farbe
 - 1. Pebble BlackMetallic Color
 - 2. Diamond Red Metallic Color
 - 3. Regal Blue Metallic Color
 - 4. Silver Metallic Color
- 2. Battery 72 net BATTERY total range 541 km Daily price approx. € 4,500
- 3. Warranty extension by 1 year to max plus 7 years possible € 480.00
- 4. Speed adjustment up to 180 km / h € 320,00
- 5. Nationwide transport € 380.00 flat rate

All prices are net data the VAT. (VAT) per country must be added.

The SL Motors AG model comes with a 2-year or 250,000 km warranty on the car. 5 years or 250,000 km are indicated on engine, transmission & battery.

All information is without guarantee and can be adapted by the manufacturer at any time.

The stated consumption and emission values were determined in accordance with the statutory measurement methods. Since 1 September 2017, certain new cars have already been type-approved in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test procedure for measuring fuel consumption and CO2 emissions. From 1 September 2018, the WLTP will gradually replace the new European driving cycle (NEDC). Due to the more realistic test conditions, the fuel consumption and CO2 emission values measured according to the WLTP are in many cases higher than those measured according to the NEDC. As a result, from 1 September 2018, there may be corresponding changes in vehicle taxation. For more information on the differences between WLTP and NEDC, see <https://www.....>

Currently, the NEDC values are still mandatory to communicate. As far as new cars are type-approved according to WLTP, the NEDC values are derived from the WLTP values. The additional indication of the WLTP values can be made voluntarily until their mandatory use. Insofar as the NEDC values are indicated as ranges, they do not refer to a single, individual vehicle and are not part of the offer. They are for comparison purposes only between the different types of vehicles. Additional equipment and accessories (attachments, tyre format, etc.) can change relevant vehicle parameters such as .B weight, rolling resistance and aerodynamics and, in addition to weather and traffic conditions and individual driving behaviour, affect fuel consumption, power consumption, CO2 emissions and driving performance values of a vehicle.

1

Further information on official fuel consumption and the official, specific CO2 emissions of new passenger cars can be found in the guide on fuel consumption, CO2 emissions and electricity consumption of new passenger cars, which is available free of charge at all sales outlets and at DAT Deutsche Automobil Treuhand GmbH, Hellmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen <https://www.dat.de>.

2

Efficiency classes evaluate vehicles based on CO2 emissions, taking into account vehicle empty weight. Vehicles that correspond to the average are classified with D. Vehicles that are better than today's average are classified as A+, A, B or C.

Vehicles that are worse than average are described as E, F or G. The information provided here refers to the EC type-approval of the selected model and its standard equipment in accordance with Directive 2007/46/EC. The optional equipment you choose during configuration may result in your configured model being of a different approved type due to the equipment you choose than would be the case without the optional equipment you have chosen. This may cause discrepancies in the specifications for your configured model. The specified CO2 values are the values determined in the context of the vehicle's type-approval.

3

Recommended retail price from the manufacturer, plus transfer and registration costs.

Not all wheels/tyres are available at the time of configuration. Some wheels/tyres are limited or not available at the time of purchase. Ask your dealer about the availability of the wheels/tyres and check that your configured vehicle also contains the desired optional equipment. The targeted ordering of a specific tyre manufacturer is not possible for logistical and production reasons. Information on the EU tyre label can be obtained from your Volkswagen partner, in the product brochure Technology & Prices, as well as at <https://www.....>

Our vehicles are equipped with summer tyres as standard. Since 04.10.2020, you are legally obliged in the Federal Republic of Germany to equip your vehicle with M+S tyres or all-season tyres in the case of smooth ice, snow smooth, snow mud, ice or tyre smooth. Your partner will be happy to advise you.
